Section I

Let's Get Started!

Summary

It's time to get started on preparing for the GED. In this section you can find reasons why the GED is important, as well as eligibility requirements for taking the GED in Texas.

Why Take the GED?

Check Your Eligibility

Residents may test at age 17 with parent or guardian permission if they're not currently enrolled in school.

Students may also test at age 16 if they're in the care of a Texas state agency or under a court order.

- ☐ Check the enclosed printer document for more eligibility details!

Submit

There will be a long GED# (you may have already written this down) in the username field, you can delete this and make your username anything you want. (We recommend using a username and password that will be easy for you to remember. Write it down on a piece of paper now!) Just put the cursor in the username field and delete the GED#. Then create a password that is at least six letters or numbers long. Once you have all the information entered, **Submit**.

Recommendation: We recommend using a username and password that will be easy for you to remember. Write it down on a piece of paper now!

The screenshot shows the GED Testing Service Registration Form for a user named Beth Testaccount. The form includes a navigation menu on the left with links to Home, Registration Forms, Personal Information, Update Personal Information, History, FAQs, Change Password, and Logout. The main content area displays the GED Testing Service logo and a message: "Please complete the GED Testing Service® Registration questions for your jurisdiction. Good luck!". Below this, there is a question: "Is this the first time that you have taken a GED® Test since January 1, 2002?" with radio buttons for Yes and No. A red circle highlights the question: "* What is your identification number type?" with a dropdown menu showing "-Select-". A red arrow points to this question. Below the dropdown is another question: "* List your identification number." with a text input field.

One of the first questions is a little tricky:
"What is your identification number type?"

The Identification Type most people use is their Social Security number. However, you can use any of the other types you see in the drop down menu. If you select Social Security number, you must enter all nine digits in the next field. Don't worry though this information is completely safe with us.

Once you complete all the questions, scroll to the bottom of the screen and click **"Submit Form."**

* Do you need to request modified testing conditions for a documented disability? [Click here for more details](#)

☐ Yes

☐ No

Note: By selecting Yes, you will need to go through the accommodations request process **before you can schedule** your GED® Tests. This includes completing an Accommodations Request Form and submitting appropriate documentation of your disability. Step-by-step instructions and forms can be found at: <http://www.gedtestingservice.com/accommodations>.

Save for Later Submit Form

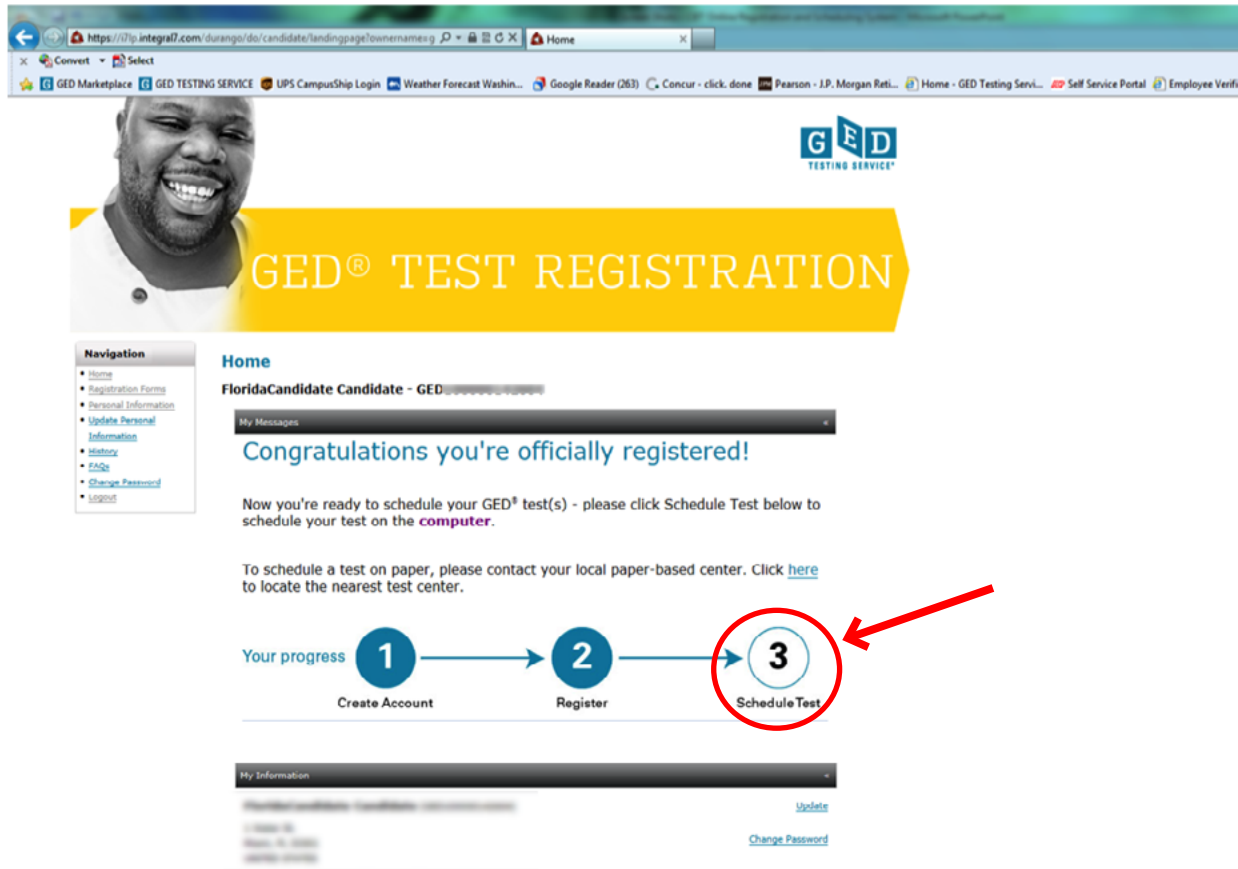

There are a couple of confusing questions here too.

The question that asks: “Did you take the Official GED Practice Test™?” Most likely if you took a practice test in class, you took this test, so go ahead and answer yes. You can also buy this test online, so if you did this you will also answer yes. If you don’t remember taking a practice test go ahead and answer no.

Another confusing question asks: “Do you need to request modified testing conditions for a documented disability?” Most people will answer NO to this question. However, if you’ve seen a doctor and have a diagnosed disability such as a learning disability and have proof from a doctor you will select YES to this question. If you answer yes, you will have to wait for further approval to continue scheduling your GED® test.

Once you complete all the questions, scroll to the bottom of the screen and click **“Submit Form.”**
